DETAILED ACTION

1. Claims 1-12 are allowed.

Priority

2. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Taiwan on 3/16/2001. It is noted, however, that applicant has not filed a certified copy of the 90106218 application as required by 35 U.S.C. 119(b).

3. The following is an examiner's statement of reasons for allowance: the prior art of the record teaches the method and the system for monitoring a workpiece during transportation and/or production process; however, the prior art of the record particularly fails to teach or fairly suggest in combination with the other elements and features of the claimed invention regarding claims 1-12, a spilt lot ID naming system and a method for creating an exclusive ID for a split lot in a multiple-plant enterprise, wherein the split lot originates from an initial lot which begins processing at an initial plant, comprising: a split ID unit identifying in which plant the split lot is divided and when the split lot is divided in the initial plant, assigns a split code to the split lot following the main code, or when the split lot is not divided in the initial plant, assigns a plant code and a split code to the split lot following the main code; and a lot data unit for storing the lot ID created from the main ID unit and the split ID unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
